Quality Gate Conditions

STATUS	METRIC	ACTUAL	THRESHOLD
PASS	new_reliability_rating	1	GT 1
PASS	new_security_rating	1	GT 1
PASS	new_maintainability_rating	1	GT 1
PASS	new_duplicated_lines_density	1.2	GT 3
PASS	new_security_hotspots_reviewed	100.0	LT 100

Vulnerabilities (0)

✓ No vulnerabilities found — all browser-storage writes remediated

Bugs (0)

✓ No bugs found

Security Hotspots (0)

✓ All security hotspots reviewed and confirmed safe

Code Smells (8 · Minor / Info only)

SEVERITY	RULE	LOCATION	MESSAGE
MINOR	javascript: S7773	frontend/src/components/CreateRidePage.jsx line 80	Prefer Number.parseInt over parseInt.
MINOR	javascript: S7773	frontend/src/components/CreateRidePage.jsx line 81	Prefer Number.parseInt over parseInt.
MINOR	javascript: S7773	frontend/vite.config.js line 54	Prefer Number.parseInt over parseInt.
MINOR	javascript: S7735	frontend/src/components/RegistrationPage.jsx line 139	Unexpected negated condition.
INFO	javascript: S7772	frontend/vite.config.js line 5	Prefer node:fs over fs for built-in module imports.
INFO	javascript: S7772	frontend/vite.config.js line 6	Prefer node:path over path for built-in module imports.
INFO	javascript: S7772	frontend/vite.config.js line 7	Prefer node:child_process over child_process for built-in module imports.
INFO	javascript: S7772	frontend/vite.config.js line 8	Prefer node:process over process for built-in module imports.
